SCOPE AND HISTORY OF MICROBIOLOGY

Father's age seen as crucial to baby's disease risk LONDON (Reuters) - A father's age, not a mother's, when a baby is conceived is the single largest factor in the risk of passing on new gene mutations to children and may help explain why childhood autism rates are rising, scientists said on Wednesday In a study which turns conventional

It's About Time: Understanding Einstein's Relativity ebooks

In It's About Time, N David Mermin asserts that relativity ought to be an important part of everyone's education--after all, it is largely about time, a subject with which all are familiar The book reveals that some of our most intuitive notions ...
